# I ENHANCEMENTS

## I.1 KEY INFORMATION DOCUMENTS

Regulation 13A of the Conduct of Employment Agencies and Employment Businesses Regulations 2003 (the ‘Conduct Regulations’), introduces a requirement to provide a Key Information Document (KID) for agency workers. It may also prove useful for hirers, intermediary or umbrella companies in the recruitment supply chain and agency workers themselves.

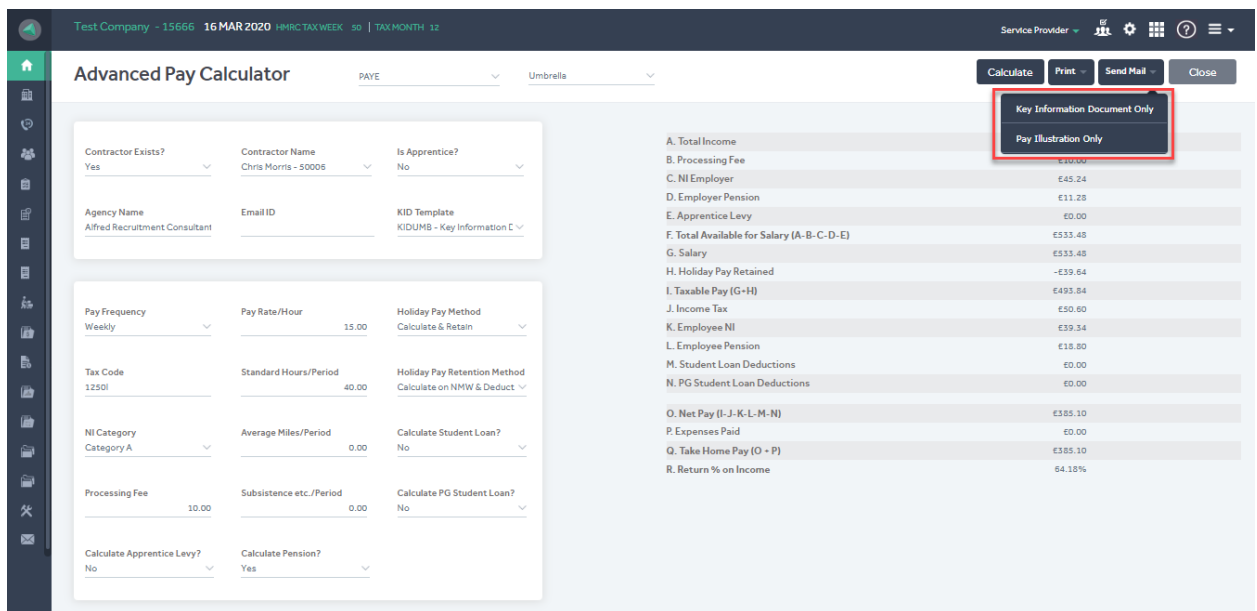

**This new regulation will take effect from 6 April 2020.** From this date, all agency workers must be given a KID before agreeing terms with an employment business. In practice this will mean that the KID will be one of the first things they receive. The regulation does not apply to agency workers with existing terms with an employment business, but they will be entitled to a KID when they sign up with a new employment business.

We’ve made updates to our Advanced Pay Calculator which will allow you to create Pay Illustrations and KIDs to send to the contractors you pay. We’ve also added KID templates to the system which you can view and edit by going to Settings -> Email & SMS -> Email Templates and searching for Key Information Document in the description column.

- Go to Tools -> Advanced Pay Calculator
- Select the payment model; either PAYE or Self Employed

- If PAYE, select the PAYE method; either Umbrella or PAYE Plus
- Select or input the contractor details and select the relevant KID template from the dropdown
- Complete all of the payment information fields
- Click Calculate to display the pay illustration
- Choose to send the Pay Illustration or KID from the Send Mail button
- Save a PDF of either the Pay Illustration or KID from the Print

## 1.2 JOINT EMPLOYMENT MODEL – REVERSING ADDITIONAL INVOICES

If you're using the Joint Employment Model (two-stage invoicing method), you'll now be able to reverse additional invoices you have generated. You can do so by clicking the orange 'Credit This' arrow next to the invoice you wish to reverse. Once reversed, the associated P11 entry will appear in the 'Generate Additional Invoices' section as outstanding.

A pop-up warning message will show if you try to add a new timesheet or expense claim for a contractor whose Visa has expired.

If a contractor with an expired Visa is included in a timesheet or expense bulk import, their data will be imported but a warning will show in the message column on the import screen.

An icon will appear next to the contractor's name in their record if their Visa has expired. Hovering over this will reveal the full notification.
